Auto Workers. Union of America
in as much as I do. despise this statement
it is surely true. as to this shut down
I am now on the last leaf of my thoughts
unless this thing isn't settled soon. &
Damn. soon. I shall loose every thing
I have & God. Knows just where. it all
comes from. I shall be forced to stop
my Daughter from going to High
school. just for the sake of this
strike. I just cant get the money
to keep her in school any more.
for she cant walk 5 miles to
school. I have been a Union man
for 7 years & I can say this much.
that it all is a hopeless job. to my
best judgment

I feel that this Organasion Has cupled.
more Homes + Families than all the
good. it will ever. do for any
of them. I am not asking any
Help from this Organasion but I do.
think you. might realize there is
Others that Exist except just a
Hand-ful. of men. that cant see.
for them selves [I am 2 months
behind on my car. + furniture]
when will any one ever get there
Breath on. the Lousy wages you.
will get when this is all over.
[my best advise is to get down to some
settlement of some sort]

as a Union member. I am.
