2) We live at a time
of revolutionary
change + challenge.

~~The future is part~~
~~with both peace~~
~~+ prosperity~~

I believe
The overriding question
before the human family
is this question
to what purpose do
we commit the
power + potential
of the 20th century
Task Revolution -

3) If we commit ourselves to the continued exploitation of the machine, the pollution and race and man ultimate total self destruction —

Or can we —
build a rational + responsible world community —
harness — energy, Art + Tech
more purposeful purposes
Extend frontiers — human Progress
in Peace
Open up - new + creative Spirit
for the Growth + fulfillment.

4) Problem is our

trouble word

is not Science

the problem is more

Science and Technology

are neutral affairs)

5) The basic dilemma

of the Human condition:

is that

Science & Technology

have expanded our Wealth

but not our Wisdom

Science & Technology -

have multiplied our Power

not our understanding

our Compassion -

our sense of Human Solidarity

The Local Union ought not be permitted to persist in its dereliction, however. Those who seek elective office must accept its emoluments of responsibility. The failure on the part of the committeemen to attend meetings of the Joint Council effectively disenfranchises their respective constituencies. We shall order Local 157, therefore, to take whatever steps are required to amend its bylaws to provide for penalties for non-attendance at meetings as prescribed by Article 30, Section 6, of the Constitution. The Local shall advise the Public Review Board within one-hundred twenty days of the date of this decision of the steps which it has undertaken to comply with this order.

Finally, we feel we would be remiss if we did not commend appellant Joseph Tencza for his enterprise and diligence in this undertaking. John Philpot Curran once said, "The condition upon which God has given liberty to man is eternal vigilance." Tencza's efforts are consonant with this admonition.
