ON CIO RES. NO. 25 (Page 31)

THE NUMBER 1 CIVIL RIGHTS ISSUE IS SENATE

RULE XXII.

In recent times, we have had much easy, breast beating talk about civil rightsm about believing in and working for FEPC, Anti-Poll Tax and Anti-Lynch legislation.

Public officials, and candidates for public poffice, reel off their endorsement of these long overdue items of economic and political justice.

These steps toward economic and political justice are literally of life-or-death importance for Negroes and other minorities. They have been often promised and, to date, never ~~dxxixxxxx~~ delivered by Congress. Because they are so important, endorsement, year after year, is considered politically ~~xxx~~ sure fire.

But, unless the American people face up to the facts of life in the United States Senate, noble talk about how much we love civil rights will get us nothing. It will wear thinner the patience of millions of members of minority groups whose hopes have been knocked down again and again the a minority that rules the

again and again by a minority that has set aside majority rule and substituted rule by the veto of a minority in the United States ~~Senate~~ Senate.

The American people have got to face up to the hard fact that ALL civil rights legislation-- and much other liberal legislation-- is doomed to defeat as long as Senate Rule XXII is allowed to stand.

And Senate Rule XXII was designed, intende and ~~and~~ written to stand forever, to bind all future Senates to the end of time to control by the veto power of a monopoly.

Talk about a mere Rule sounds dull and technical and unimportant.

The enemies of civil rights planned it that way.

The enemies of FEPC want it to stay that way.

The friends of the poll tax want it to stay that way.

The defenders of lynch terror want it to stay that way.

These anti-democratic forces don't care how much and low long the friends of civil rights cry out for and demand FEPC, anti-poll tax and anti-lynch legislation-- now that they have Rule XXII-- so long as wezdoxzszxax the American people do not act effectively to get rid of Rule XXII.

Any candidate for public office who talks about civil rights and does not talk about Rule XXII is either kidding himself or is trying to kind members of minority groups and Americans generally.

What is Senate Rule XXII?

This is the wholly unconstitutional rule that fastens rule by the veto power of a minority u upon the Senate of the United States.

Was adopted Mar. 17, 1949 by a coalition of Republicans and Southern Democrats.

Ut says that, to break a filibuster, 2/3s of the 96 members of the Senate must be present and voting-- all 64-- must vote to limit debate.

In other words, a minority of 33 Senators-- 1/3-plus-one-- can block action, bring our whole Federal governmant to a halt.

The enemies of majority rule do not even need to be present or vote. They can vote NO by simply being absent.

By using the threat of a filibuster, to vote against cloture and for continuing a filibuster against the will of the majority, the manority can and does kill some bills and weaken and delay others.

This veto power is xxxused not only against civil rights bills, but against all legislation.

Every bill-- every bill demanded in our legixlxtionzdemandedx resolutions at this concention-- must run the gauntlet of this powerful minority that has violated the intent and the very letter of the Constitution by putting over this Rule XXII on the American people.

But Rule XXII is worse than that.

The coalition that put over this Rule wrote in a Clause 3 that says that there can never be any limitation of debate whatever on a motion to take up a proposed cange in this or any other Senate Rule.

This is not only uncontitutional; it is legislative madness. It reminds many people of the vain boast of Hitler that the Reich would last for a thousand years.

It is not going to stand.

This Nation can not tolerate this constitutional crisis very long in these days.

Not only is the denial of economic and poli political justiwe intolerable; the scandal of denying in practice what we preach about democracy and equal opportunity abroad is too great.

Rule XXII is unconstitutional; it must be set aside.

It CAN be set aside whenever, and as soon as, the American people fully understand its meaning and prevail upon the Vice President and a clear majority of the members of the United States Senate to set it aside as a flagrant violation of the Constitution.

The new Senate of the 83rd Congress will clearly have the power to adopt its own Rules.

If the Vice President, as presiding officer of the Senate, so holds, and if his interpretatio is upheld by majority vote of the Senate, the Senate can then proceed to adopt a new rule provinding for the limitation of debate whenver a majority of those present and voting so vote.

Now, how do we bring this about?

Starting now, we must begin to bring home to our members and to all the American people the real meaning of Rule XXII, the fact that it is a roadblack that has been set in place to trap FEPC and other civil rights legislation down in the ~~fazxsndxzx~~ dead end of filibuster alley.

The No. 1 civil rights issue now and in 1952 is the setting aside of Rule XXII and the establishment of majority rule in the United States Senate.

Let us launch a demand now, in voting for this resolution, that both major political parties and their candidates clearly and unequivacally pledge themselves to this simple plank in their 1952 platforms:

Set Aside Rulex XXII; establish majority

rule in the United S$_t$ates Senate by adopting a new rulex providing for the limitation of debate on any and all matters by majority vote.

This is the way to get down to brass tacks on the civil rights issue in the field of legislation.

In the meantime, let us intensify our dem demands that President Truman, by executive or order, re-establish FEPC covering defense employment. Ever since Korea, the CIO has been urging the issuance of such an order.

But, so great is the power of the minority rule over all legislation, including defense bills and approrpriations, that excuses have been made for delay, again and again.

President Murray and I have urged, within the Defense Mobilization Advisory Board, the issuance of such an order as an act of justice and a necessity for the fullest utilization of available manppower. This demand is again on the agenda fowr our Nov. 18 meeting.

We will cotninue to fight. But all of CIO and the A,ericanx people must get into this fight.
